Calculation of VITEEE Result 2019

The result of VITEEE 2019 will be calculated on the basis of an Equipercentile Equating Method. This process of calculating the result is a statistical method where the scores of candidates will be adjusted on test forms by Vellore Institute of Technology. For the ranking and merit list of the candidates, a comparison of the scores mentioned on the scorecards will be done by taking on different test forms. The scores on different forms with the same rank or percentile will be considered equal to identify the percentile rank of the candidates.

The conducting body of the examination i.e., VIT University has adopted the Equipercentile Equating Method to facilitate a fair and meaningful comparison for the rankings of candidates who have taken different forms of tests. This method equates candidates' scores by adjusting them on test forms so that the scores on the forms could be used interchangeably. To simplify, if the percentile rank of a candidate is 85 then this denotes that there are 85 per cent test takers who have scored less than the candidate and 15 per cent test takers who have more than the candidate.

VITEEE 2019 Merit List
